

**Resolution HSRA #16-28**

**Approval to Release a Request for Qualifications for Fresno Station Design, Operations Control Center and Related Design Services**

**Whereas**, the California High-Speed Rail Authority (Authority) is responsible for the development and implementation of intercity high-speed rail service pursuant to California Public Utilities Code Sections 185030, *et seq.*;

**Whereas**, the Authority may enter into contracts with private and public entities for the design, construction and operation of high-speed rail trains, including all tasks and segments thereof pursuant to California Public Utilities Code Section 185036;

**Whereas**, the design of stations is critical to several aspects of the high-speed rail program's success, including attracting ridership, meeting the State's environmental and sustainability goals, and capturing ancillary revenues associated with station area development; and,

**Whereas**, the design and construction of a Fresno Train Station and Operations Control Center and related services are necessary and vital to delivery of the high-speed rail system.

**Therefore, it is resolved:**

The Chief Executive Officer is hereby authorized to release a Request for Qualifications to obtain Statements of Qualifications from qualified offerors to provide Fresno Passenger Train Station and High-Speed Rail Operations Control Center Design and Related Services, in order to select one consultant to enter into a contract for the work for a term of six years and a total not-to-exceed contract amount of \$11,000,000.

Authority staff is authorized to make changes to the Request for Qualifications as necessary during the procurement process.
