

**California High-Speed Rail Authority**

**RFP No.: HSR 14-32**

**Request for Proposal for Design-Build  
Services for Construction Package 4**

**Book IV, Part C.1 – Conflict of Interest Policy**

**CALIFORNIA HIGH-SPEED RAIL AUTHORITY**  
**ORGANIZATIONAL CONFLICT OF INTEREST POLICY**

**I. Purpose**

This Organizational Conflict of Interest Policy (“Policy”) prescribes ethical standards of conduct applicable to persons and entities entering into contracts with the California High-Speed Rail Authority (“Authority”) as authorized by Section 185000 et seq. of the California Public Utilities Code, and applies to subcontractors as well as prime contractors.

This Policy is supplemental to the Authority’s general Conflict of Interest Code and does not modify or supersede any requirements contained in that Code.

This Policy is intended to accomplish the following goals:

1. Promote integrity, transparency, competitiveness and fairness in the Authority’s procurements and contracts;
2. Prevent bidders and proposers from obtaining or appearing to obtain an unfair competitive advantage with respect to the Authority’s procurements and contracts;
3. Provide guidance to enable contractors to make informed decisions while conducting business with the Authority; and
4. Protect the validity of Authority contracts, confidential and sensitive information concerning the High-Speed Rail (“HSR”) Project, and other Authority interests.

The Authority recognizes that its goals must be balanced against the need to not unnecessarily restrict the pool of potential proposers or contractors available to participate in Authority procurements and contracts. This Policy neither purports to address every situation that may arise in the context of the Authority’s procurements and contracts, nor to mandate a particular decision or determination by the Authority. The Authority retains the ultimate and sole discretion to determine on a case-by-case basis whether an Organizational Conflict of Interest (as defined below) exists and what actions may be appropriate to avoid, neutralize or mitigate any actual or potential Organizational Conflict of Interest or the appearance of any such Organizational Conflict of Interest.

This Policy does not address all applicable requirements that may affect persons and entities wishing to enter into contracts with the Authority. Examples of such requirements include: (a) the requirements of the California Political Reform Act and regulations promulgated by the California Fair Political Practices Commission, (b) restrictions in Public Contract Code section 10365.5 with respect to certain contractors engaged to perform consulting services, and (c) rules of conduct

established by the California Board for Professional Engineers and Land Surveyors,<sup>1</sup> State Bar of California<sup>2</sup> and California Board of Accountancy.<sup>3</sup>

Attachments A and B hereto identify certain hypothetical situations involving potential conflicts of interest and how they would likely be resolved under this Policy.

## II. Definitions

1. An “**Affiliate**” of a Contractor is:
  - A. Any shareholder, member, partner or joint venture member of the Contractor,
  - B. Any person or entity which directly or indirectly through one or more intermediaries controls, or is controlled by, or is under common control with, the Contractor or any of its shareholders, members, partners or joint venture members;
  - C. Any entity for which ten percent or more of the equity interest in such entity is held directly or indirectly, beneficially or of record by (i) the Contractor, (ii) any of the members, partners or joint venture members of the Contractor, or (iii) any Affiliate of the Contractor under clause (B) of this definition; and
  - D. Any entity for which ten percent or more of the equity interest in such entity is held directly or indirectly, beneficially or of record by any of Contractor’s shareholders other than shareholders whose only interest in Contractor is in the form of publicly traded stock.

For purposes of this definition the term “control” shall mean the possession, directly or indirectly, of the power to cause the direction of the management of an entity, whether through voting securities, by contract, family relationship or otherwise.

2. “**CEQA**” means the California Environmental Quality Act.
3. “**Contractor**” means any individual or legal entity retained by the Authority to perform work on the HSR Project, or proposing to perform such work, including joint venture members and general partners of any such entity; any subcontractor of such individual or legal entity (at all tiers); and each individual employee of such individual, legal entity or subcontractor.

---

<sup>1</sup> California Code of Regulations, Title 16, Division 5, Article 4, Sections 475 and 476.

<sup>2</sup> State Bar of California, Rules of Professional Conduct, Rules 3-300 and 3-310,

<sup>3</sup> California Code of Regulations, Title 16, Division 1, Article 9.

4. **“Consultant”** means a Contractor performing or proposing to perform professional or consulting services for the Authority or another public agency working on the HSR Project. The term includes, without limitation, any person or legal entity providing accounting, auditing, architecture, landscape architecture, construction project management, engineering, environmental consulting, land surveying, legal, or right of way acquisition services.
5. **“EIS”** means Environmental Impact Statement.
6. **“FRA”** means the Federal Railroad Administration.
7. **“FTA”** means the Federal Transit Administration.
8. **“NEPA”** means the National Environmental Policy Act.
9. **“Organizational Conflict of Interest”** means a circumstance arising out of a Contractor’s existing or past activities, business or financial interests, familial relationships, contractual relationships, and/or organizational structure (i.e., parent entities, subsidiaries, Affiliates, etc.) that results in (i) impairment or potential impairment of a Consultant’s ability to render impartial assistance or advice to the Authority or of its objectivity in performing work for Authority, (ii) an unfair competitive advantage for any Contractor bidding or proposing on an Authority procurement; or (iii) a perception or appearance of impropriety with respect to any of the Authority’s procurements or contracts or a perception or appearance of unfair competitive advantage with respect to a procurement by the Authority (regardless of whether any such perception is accurate).
10. **“Project Section”** means each of the sections of the High-Speed Rail Project which are currently being studied in the draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) process, as such sections may be modified during the CEQA/NEPA process. The sections are currently identified as:
  - San Francisco – San Jose
  - San Jose – Merced
  - Merced – Fresno
  - Fresno – Bakersfield
  - Bakersfield – Palmdale
  - Palmdale – Los Angeles
  - Los Angeles – Anaheim
  - Los Angeles – San Diego
  - Sacramento – Merced
  - Altamont Corridor

Certain of the Authority’s contracts may include services that apply to multiple Project Sections, for example for trackwork and systems, or may include general services to the Authority that do not apply to any particular Project Section. For

such contracts, all Consultants will be subject to the requirements of Sections VII(2) or VIII(1), as appropriate.

11. **“Procurement Services”** mean services provided by a Consultant for the benefit of the Authority relating to any or all of the following:
  - A. Development of procurement strategy and/or approach to risk allocation;
  - B. Development and preparation of procurement documents including requests for qualifications, requests for proposals, invitations for bids, contract documents and technical specifications, but excluding development and preparation of preliminary design, reports or similar “low level” documents for incorporation by others into a procurement package.
  - C. Development of evaluation criteria, process or procedures;
  - D. Administration of a procurement;
  - E. Evaluation of procurement submittals by Contractors (e.g., qualification submittals, proposals, etc);
  - F. Negotiation of a contract; and
  - G. Advising the Authority in any other aspect of the procurement that the Authority determines, in its sole discretion, should be considered Procurement Services.
12. **“Public Records Act”** means the California Public Records Act, Government Code Section 6250 et seq.).

### **III. Applicability**

1. This Policy applies to all Contractors that have entered into, or wish to enter into, contracts with the Authority.
2. To the extent that the Authority has previously consented in writing to performance of work by a Contractor that would not have been permitted under this Policy, adoption of this Policy does not modify or alter the prior consent. The foregoing does not, however, mean that the Authority is required to consent to Contractor’s participation in future proposals or contracts.

### **IV. Federal Requirements**

The Authority must comply with requirements applicable to FRA-funded projects, including United States Department of Transportation regulations applicable to federally funded procurements and contracts set forth in 49 CFR Part 18. Nothing in this Policy

is intended to limit, modify, supersede or otherwise alter the effect of other relevant federal, State, or local regulations, statutes or rules.

## **V. Organizational Conflicts of Interest Disclosure**

### **1. Obligation to Disclose**

Subject to the written requirements established for a particular procurement, any Contractor having or potentially having an Organizational Conflict of Interest shall promptly disclose the matter to the Authority at:

The office of the Chief Counsel/ Mr. Thomas Fellenz  
770 L Street, Suite 800  
Sacramento CA 95814

The disclosure should contain a detailed description of (i) the facts and circumstances giving rise to the actual or potential Organizational Conflict of Interest; and (ii) any efforts the Contractor has taken or proposes to take to mitigate the conflict. The procurement documents or contract may provide supplemental requirements regarding disclosures. The failure to disclose any actual, perceived or potential Organizational Conflict of Interest may result in serious consequences to the Contractor and its Affiliates.

Upon receipt of a disclosure, the Authority will review the matter and, in accordance with this Policy, advise the Contractor in writing whether it has an Organizational Conflict of Interest with respect to its participation in a procurement or performance of a contract with the Authority. The Authority's decision on the matter shall be final and binding and shall not be subject to appeal.

An Organizational Conflict of Interest may arise at any time, and a Contractor's obligation to disclose is ongoing. Contractors participating in contracts with the Authority and bidding/proposing on Authority contracts shall use all reasonable efforts to arrange their affairs so as to prevent Organizational Conflicts of Interest from arising. Contractors should undertake reasonable due diligence, including necessary conflict searches, to determine whether new actual, perceived or potential Organizational Conflicts of Interest have arisen. Each Contractor shall consider whether disclosure is required in connection with new hires, changes in the company's board of directors, mergers, and new business relationships including joint ventures and contractor/subcontractor relationships. Due to the potential for conflicts which could result in an Authority contract being deemed invalid and void, the Authority is particularly concerned about Contractor's relationships with current and former Authority employees and individuals designated by the Authority as consultants subject to the Authority's Conflict of Interest Code. A Contractor must immediately inform the Authority if it is negotiating to hire, has made an offer of employment to, or has actually hired (i) an existing Authority employee, (ii) a former Authority employee, (iii) an individual who is currently on the Authority's list of consultants subject to the Authority's Conflict of Interest Code, or (iv) an individual who was formerly on the Authority's list of consultants subject to the Authority's Conflict of Interest Code but who is not currently performing work for the Authority.

Consultants whose responsibilities to the Authority include review, supervision or oversight of work by other entities should pay careful attention to their relationships with the other entities and their Affiliates and should take care to avoid relationships with such other entities that would give rise to an Organizational Conflict of Interest. Due diligence should extend to investigation of past relationships and, if the Contractor is a corporate entity, to officers or directors of the Contractor. A Consultant shall not be the Authority's agent for review, approval, or acceptance of its own work product. If a Contractor becomes aware of an actual, perceived or potential Organizational Conflict of Interest at any time during its participation in a procurement or performance of a contract, the Contractor shall promptly disclose the matter as described herein.

## **2. Failure to Comply**

If the Authority determines, in its sole discretion, that a Contractor has failed to comply with this Policy in any respect (including any failure to disclose an actual, perceived or potential Organizational Conflict of Interest), the Authority may, among other things, take the following actions:

- A. Preclude and/or disqualify the Contractor and its Affiliates, as well as any other persons or legal entities on the Contractor's team, from participation in the Authority's procurements;
- B. Require the Contractor and its Affiliates, as well as any other persons or legal entities on the Contractor's team, to implement mitigating measures;
- C. Cancel or amend the contract under which the Contractor is performing work for the Authority; and/or
- D. If the Contractor was or should have been aware of and failed to disclose an Organizational Conflict of Interest prior to award of the contract, terminate such contract for default.

If the Authority cancels a contract as specified above, it will have no obligation, responsibility or liability to reimburse all or part of the costs incurred or alleged to have been incurred by the Contractor, its Affiliates or other team members. Additionally, the Authority shall be entitled to recover any and all payments made to the Contractor subsequent to the date when the Contractor became aware of or should have become aware of the existence of the Organizational Conflict of Interest.

## **VI. Conflict of Interest Standards Applicable to Environmental Consultants**

Consultants responsible for preparing documents under CEQA and NEPA are required to comply with all State and Federal laws and regulations applicable to such services, including requirements relating to organizational conflicts of interest. Until such time as the FRA issues a policy, guidelines or regulations regarding organizational conflicts of interest for such services, the Authority will follow the guidance provided by the FTA, including the FTA's Best Practices Procurement Manual. Among other things, the FTA

manual precludes any consultant that is responsible for preparing an EIS from having any financial or other interest in the outcome of the project that is the subject of the EIS, until after the EIS is complete. Accordingly, any Consultant that is responsible for preparing an EIS for a Project Section or portion of a Project Section will be precluded from joining a design-build team for such Project Section(s) until after the Record of Decision has been issued.

Subconsultants to a CEQA/NEPA Consultant may request permission to be released from further CEQA/NEPA work to allow them to join design-build teams or participate in other procurements for the Project Section(s) being analyzed in the CEQA/NEPA document. The Authority has no obligation to authorize a CEQA/NEPA subconsultant to participate on a design-build team or to agree to release the subconsultant from its responsibilities relating to the CEQA/NEPA document. The Authority's decision on the matter shall be final and binding and shall not be subject to appeal.

## **VII. Restrictions Affecting Consultants Joining Design-Build Teams**

### **1. Procurement Consultants**

- A. No team submitting a proposal for an Authority design-build contract (referred to herein as Contract A) may include any Consultant that provides or has provided Procurement Services for Contract A.
- B. Unless the Authority provides prior written approval as specified below, no team submitting a proposal for Contract A may include (i) any Consultant that provides or has provided Procurement Services (other than development of technical specifications or review and evaluation of technical submittals) for any other Authority design-build contract (referred to herein as Contract B) within 12 months prior to the proposal due date for Contract A or (ii) any Affiliate of such a Consultant. Subject to Sections VI and VII(1)(A), a Consultant that has provided Procurement Services for Contract B within 12 months prior to the proposal due date for Contract A may submit a request to the Authority to permit the Consultant or its Affiliate to participate on a design-build team submitting a proposal for Contract A. Upon receipt of such request, the Authority will consider the factors set forth in Section IX and may, in its sole discretion, provide written authorization allowing such a Consultant or its Affiliate to participate on the team, subject to implementation of safeguards and mitigating measures deemed appropriate by the Authority.

### **2. Consultants Providing Services for the Same Project Section**

- A. Unless the Authority provides prior written approval as specified in Sections VII(2)(B) and (C) below, no team submitting a proposal for a Project Section design-build contract may include (i) any Consultant that provides or has provided professional or consulting

services to the Authority with respect to the same Project Section or (ii) any Affiliate of such a Consultant.

- B. Subject to Sections VI and VII(1), a Consultant that has provided professional or consulting services for a Project Section may submit a request to the Authority to permit the Consultant or its Affiliate to participate on a design-build team for the same Project Section. Upon receipt of such request, the Authority will consider the factors set forth in Section IX and may, in its sole discretion, provide written authorization allowing such a Consultant or its Affiliate to participate on the team, subject to implementation of safeguards and mitigating measures deemed appropriate by the Authority.
- C. Subject to Sections VI and VII(1) and full disclosure of all actual or potential organizational conflicts as required herein, a Consultant (and/or its Affiliates) may participate in a design-build team without written authorization under Section VII(2)(B), if all of the following conditions are satisfied as of the date of issuance of the request for proposals for the design-build contract: (i) all services to be performed by such Consultant and its Affiliates with respect to the relevant Project Section have been fully completed, (ii) all relevant contracts with the Consultant and Affiliates have been terminated or the Authority has stated in writing that no further services will be required of the Consultant or its Affiliates under said contracts, and (iii) the Authority has stated in writing that the relevant work product of the Consultant and its Affiliates will be made available to all of the design-build teams.

**3. Consultants Providing Services on a Different Project Section**

Except as otherwise provided in Sections VI and VII(1), a team submitting a proposal for a Project Section design-build contract may include (i) a Consultant that has not provided services on the Project Section in question but is providing (or has completed) services on a different Project Section and/or (ii) Affiliates of such a Consultant. In certain cases, the Consultant may be considered to have performed work on a Project Section because of overlapping limits, interfaces or coordination efforts between Project Sections, or because the Consultant provided general services to the Authority, or because an Affiliate has performed work on the Project Section in question. Under such circumstances, the Consultant must obtain permission under Section VII(2)(B) before it (or its Affiliate) may join a design-build team.

**VIII. Conflict of Interest Standards Applicable to Consultants Desiring to Participate in New Procurements (Other Than Design-Build Procurements)**

This Section VIII does not apply to Consultants wishing to participate in the Authority's design-build contracts. Refer to Section VII above for requirements that apply.

**1. Consultants Providing Services for the Same Project Section**

- A. Except as provided in Sections VIII(1)(B) and (C) below, no Consultant may submit or participate in a proposal or bid for a contract to the Authority for a Project Section if the Consultant or any Affiliate of the Consultant is currently actively engaged in or has previously provided professional or consulting services to the Authority with respect to that same Project Section.
- B. A Consultant subject to Section VIII(1)(A) may submit a request to the Authority to permit the Consultant or its Affiliate to submit or participate in a proposal or bid for a new contract for the same Project Section as the original contract, except that no such request may be made (i) if Section VI applies or (ii) if the Consultant or Affiliate provided Procurement Services with respect to the current procurement. Upon receipt of such request, the Authority will consider the factors set forth in Section IX and may, in its sole discretion, provide written authorization allowing such a Consultant or its Affiliate to participate on the team, subject to implementation of safeguards and mitigation measures deemed appropriate by the Authority.
- C. Except as otherwise provided in Section VI, a Consultant subject to Section VIII(1)(A) may submit or participate in a proposal or bid for a new contract without written authorization under Section VIII(1)(B), if all of the following conditions are satisfied as of the date of issuance of the request for proposals or other procurement document for the contract: (i) all services to be performed by such Consultant and its Affiliates with respect to the relevant Project Section have been fully completed, (ii) all relevant contracts with the Consultant and Affiliates have been terminated or the Authority has stated in writing that no further services will be required of the Consultant or its Affiliates under said contract, and (iii) the Authority has stated in writing that the Consultant's and Affiliate work product under the original contracts will be made available to all of the proposers.

**2. Consultants Providing Services on a Different Project Section**

A Consultant (or its Affiliate) may propose or participate in a proposal for a Project Section contract even though the Consultant is providing (or has completed) professional or consulting services for a different Project Section. In certain cases, the Consultant may be considered to have performed work on a Project Section because of overlapping limits, interfaces or coordination efforts between Project Sections, or because the Consultant provided general services to the Authority, or because an Affiliate has performed work on the Project Section in question. Under such circumstances, the Consultant must obtain permission under

Section VIII(1)(B) before it (or its Affiliate) may submit or participate in a proposal.

## **IX. Organizational Conflict of Interest Factors to Consider**

The Authority will consider the following relevant factors, including case-specific factors, in determining whether a Contractor should be permitted to participate or to continue to participate in a procurement or the performance of a contract:

### **1. Relevance or Materiality of the Information**

- A. This factor may include considering whether the Contractor has in its possession information that will not and should not be made public or disclosed to other participants in the procurement, as the case may be, or that will give an unfair advantage to the Contractor, including the following:
  - (i) Planning, budgetary, or business information
  - (ii) The Authority' strategies, tactics, plans, alternatives or other inside information concerning the procurement; or
  - (iii) Information prepared for use by the Authority for the purpose of evaluating proposals, for defining the scope of the work, or for determining terms, conditions or specifications.
- B. This factor may include considering the "age" of the information, including whether the length of time between the acquisition of the information, combined with interim developments within a project (e.g., transaction structure, design, etc.), is sufficient to render the information irrelevant, immaterial, or of little or no value.
- C. This factor may include considering the extent to which the information is or will be available to other participants in the procurement and the time other participants had or will have to analyze and assimilate the information.

### **2. Materiality of the Relationship**

- A. This factor may involve considering whether the subject relationship involves branch offices or a parent company of the Contractor, and the degree of separation of work teams and information between the offices and companies.
- B. This factor may include considering the substance of a subject relationship, including whether the relationship is so indirect or remote that an actual or perceived Organizational Conflict of Interest is sufficiently mitigated (e.g., no effective risk of passing or use of confidential information or bias in the discharge of functions).

### 3. **Resources and Expertise**

- A. This factor may include considering the expertise required to undertake the subject work and the availability of suitably qualified and skilled Contractors.
- B. This factor may include considering the magnitude of the resources required to deliver a Project Section in a timely manner.
- C. This factor may include disclosing these exigencies in a competitive process, including to any relevant governing association or body to obtain its concurrence.

### 4. **Professional Governing Body Rules - Common Law**

- A. This factor may include considering the rules that are put in place by professional or other governing bodies regarding actual and perceived Organizational Conflicts of Interest and determining whether delivery of a certification or acknowledgement by a prospective Contractor or Contractor of its compliance with any such rules would be sufficient mitigation.
- B. This factor may include obtaining the advice of any such professional or governing body to the participation of a Contractor.
- C. This factor may include considering the case law relevant to Organizational Conflicts of Interest matters.

## X. **Safeguards and Mitigation Efforts**

If the Authority, after considering the relevant factors set forth in Section IX above, including case-specific factors, is of the view that a Contractor should be permitted to participate or to continue to participate in a particular procurement or contract, then the Authority, in its sole discretion, may require the Contractor to implement suitable safeguards, including those described below, to mitigate any Organizational Conflict of Interest.

- 1. The Authority may require a Contractor to establish ethical walls and related safeguards and procedures, including the segregation of individuals and information within a Contractor firm or company, thereby allowing the Contractor firm or company to participate or continue to participate in the HSR Project.
  - A. Segregated individuals may include those persons who were involved in an earlier phase or in work associated with or relevant to a specific Project Section.
  - B. Segregated information may include confidential information obtained as a result of a Contractor's or prospective Contractor's

former contracts with the Authority or confidential information obtained from former or current Authority employees.

2. The Authority may require assurances or demonstration of the type of ethical walls and the effectiveness of the ethical walls.
3. The Authority may require information (including in affidavit form) as to when ethical walls were put into place, how they operate, and whether there is any form of notification within the subject firm or company of their existence.
4. The Authority may audit, or direct others to audit on its behalf, for compliance with ethical walls and related safeguards and procedures.
5. The Authority may require such other safeguards or mitigation measures as it deems appropriate to address a specific instance of an Organizational Conflict of Interest.

## **XI. Application of Policy to Employees**

If the Authority determines that a potential or actual Organizational Conflict of Interest exists for a particular Contractor, an Organizational Conflict of Interest shall also be considered to apply to any employee of such Contractor that has participated in a material way in the performance of work giving rise to the determination. If such individual leaves the Contractor's employment, the potential or actual Organizational Conflict of Interest shall apply to such individual in the same manner as it applies to the Contractor. However, the individual's new employer (if not an Affiliate of the original employer) will not be considered to have an Organizational Conflict of Interest provided the new employer adopts and implements safeguards and mitigation measures satisfactory to the Authority its sole discretion.

## **XII. Confidentiality**

The Authority recognizes that certain information submitted to the Authority in connection with a disclosure or a request for Authority approval hereunder may be considered by the submitting party to constitute confidential information that is exempt from disclosure under the Public Records Act. In such event, the submitting party shall be responsible for clearly and conspicuously identifying the information as "CONFIDENTIAL INFORMATION SUBMITTED PURSUANT TO CHSRA ORGANIZATIONAL CONFLICTS OF INTEREST POLICY." Each Contractor submitting information pursuant to the Policy should contact its own legal counsel concerning the Public Records Act and its application to the submitting party's own circumstances.

The Authority intends to maintain confidentiality of information submitted hereunder to the extent permitted by applicable law. If the Authority is asked, while a procurement is pending, to disclose any material marked confidential that was submitted in connection with that procurement, the Authority will endeavor to notify the submitting party of the request. If any litigation is filed, the Authority's sole involvement will be as a stakeholder retaining the material until otherwise ordered by a court, and the submitting party shall

be responsible for otherwise prosecuting or defending any action concerning the materials at its sole expense and risk. In no event shall the Authority, or any of its agents, representatives, consultants, directors, officers or employees, be liable to a submitting party for the disclosure of any information submitted hereunder,

## ATTACHMENT A

### HYPOTHETICAL ORGANIZATIONAL CONFLICTS OF INTEREST SITUATIONS

The following table addresses potential Organizational Conflicts of Interest with respect to Consultants that provide services to the Authority, including Regional Consultants (“RCs”) that provide planning services, environmental services and design services for the Project Sections as well as Consultants that are engaged to provide professional and consulting services relating to administration of a design-build contract. These hypotheticals are presented for the purpose of illustrating the process to be followed in ascertaining whether an Organizational Conflict of Interest exists. In all cases, the hypotheticals are based on the following assumptions:

1. The Consultant that is the subject of the hypothetical does not have any Affiliates that also act or have previously acted as Consultants.
2. The Consultant that is the subject of the hypothetical does not perform any services for the Authority other than those described in the hypothetical.
3. The limits of relevant Project Sections do not overlap.

Hypothetical Situation	Result
<p>1. RC or other Consultant for a Project Section (or Affiliate) wishes to join a design-build team (or participate in a different type of non-consulting contract) for the same Project Section.</p>	<ul style="list-style-type: none"> <li>• Any RC is prohibited from participating in any design-build team for the same Project Section.</li> <li>• If the Consultant has performed Procurement Services (including developing technical specifications for the procurement) for the contract in question, the Consultant/Affiliate cannot participate.</li> <li>• If the RFP for the new contract is issued prior to final NEPA/CEQA approval, and if the Consultant has ongoing responsibility for preparation of the NEPA/CEQA document, the Consultant/Affiliate cannot participate.</li> <li>• In situations not involving Procurement Services or preparation of the NEPA/CEQA document, the Consultant/Affiliate may participate in the procurement without Authority approval if (a) the Consultant’s services have been completed, (b) the Consultant’s contract has been terminated or the Authority has stated in writing that no further services will be required of the Consultant and (c) the Authority has stated in writing that the Consultant’s work product will be made available to all of the proposers/bidders.</li> <li>• In all other cases, the Consultant may request Authority approval for the Consultant/Affiliate to participate. Safeguards and mitigation measures may be required.</li> </ul>
<p>2. RC or other Consultant for one Project Section (or Affiliate) wishes to join a design-build team for another Project Section.</p>	<p>In general, no approval is required for the Consultant/Affiliate to participate. However:</p> <ul style="list-style-type: none"> <li>• If the Consultant’s services include performance of Procurement Services within the 12-month period prior to issuance of the design-build RFP, the Consultant must</li> </ul>

Hypothetical Situation	Result
	request Authority approval for the Consultant/Affiliate to participate on the team. If the Authority approves participation, it may require safeguards and mitigation measures to be implemented.
3. Subconsultant to an RC or other Consultant (or Affiliate of the subconsultant) wishes to join a design-build team (or participate in a different type of non-consulting contract) .	<ul style="list-style-type: none"> <li>• The same answer applies as for hypothetical 1 and (if it is a design-build procurement) hypothetical 2. If Authority approval is required, the role played by the subconsultant on the Consultant's team will be taken into consideration when determining whether any organizational conflicts exist and the nature of any mitigation required.</li> </ul>
4. Consultant (or Affiliate) that previously performed work on a Project Section wishes to join a design-build team for that Project Section, and will not be a major participant on the design-build team.	<ul style="list-style-type: none"> <li>• The same answer applies as for hypothetical 2. If Authority approval is required, the role played by the Consultant for the Authority and the role it would play on the design-build team will be taken into consideration when determining whether any organizational conflicts exist and the nature of any mitigation required.</li> </ul>
5. RC or other Consultant (or Affiliate) wishes to join a design-build team for the Trackwork or Core Systems (electrification, signaling etc).	<ul style="list-style-type: none"> <li>• Since Trackwork and Core Systems contracts will apply to all of the Project Sections, the same answer applies as for hypothetical 1.</li> </ul>
6. Subconsultant to an RC (or Affiliate of the subconsultant) responsible for preliminary engineering services relating to right-of-way (ROW) for a Project Section wishes to propose on a new Consultant contract for ROW acquisition services for the same Project Section (including surveying, ROW engineering, ROW environmental clearance, utility clearance, appraisals, etc).	<ul style="list-style-type: none"> <li>• The subconsultant (or Affiliate) may participate in the ROW procurement without Authority approval if (i) all services to be performed by such subconsultant with respect to the relevant Project Section have been fully completed, (ii) the prime contract has been terminated or the Authority has stated in writing that no further services will be required of the subconsultant under said contracts, and (iii) the Authority has stated in writing that the relevant work product of the subconsultant will be made available to all of the design-build teams.</li> <li>• In all other cases Authority approval must be requested. Safeguards and mitigation measures may be required.</li> </ul>

Hypothetical Situation	Result
7. Subconsultant to an RC (or Affiliate of the subconsultant) that was responsible for preliminary engineering services relating to right-of-way (ROW) for a Project Section wishes to propose on a new Consultant contract for ROW acquisition services for a different Project Section.	<ul style="list-style-type: none"> <li>The subconsultant (or Affiliate) may participate in the ROW procurement without Authority approval.</li> </ul>
8. An Affiliate of a Consultant that provided Procurement Services wishes to join a design-build team.	<ul style="list-style-type: none"> <li>If the Consultant provided Procurement Services for the design-build procurement in question, the Affiliate may not join a team.</li> <li>If the Consultant provided Procurement Services for a different procurement within the past 12 months, Authority approval is required.</li> </ul>
9. A Consultant that performs design or construction management services for a Project Section (or an Affiliate of the Consultant) is asked to team with the design-builder for that Project Section (or Affiliate of the design-builder) for a separate project.	<p>The Consultant/Affiliate must disclose the relationship to the Authority under Rule 475 referenced on page 1 of the Policy. The Authority may require safeguards and mitigation measures to be implemented. The contract between the Authority and the Consultant may include additional requirements.</p>
10. A Consultant or an Affiliate has the opportunity to perform work that includes preparation of design documents in a circumstance where the Consultant is responsible to the Authority for overseeing preparation of the same design documents.	<ul style="list-style-type: none"> <li>The Consultant should avoid placing itself in a position of overseeing delivery and quality of work product by itself or an Affiliate.</li> <li>Immediately upon becoming aware that that a work assignment may place the Consultant in the position of overseeing delivery and quality of its own or an Affiliate's work product, the Consultant/Affiliate must inform the Authority.</li> <li>The Authority will take measures to avoid the potential resulting conflict, which may include removal of the Consultant or Affiliate from the assignment or assignments giving rise to the conflict.</li> </ul>
11. An entity that wishes to join a design-build team has knowledge about the Project Section based on services provided to a third party that were funded by the Authority.	<ul style="list-style-type: none"> <li>The result depends on the nature of the services provided. See <a href="#">Attachment B Contract Compatibility Matrix</a> for additional information concerning third party HSR work.</li> </ul>

## ATTACHMENT B

### CONTRACT COMPATIBILITY MATRIX

The following matrix addresses potential Organizational Conflicts of Interest with respect to Contractors who are currently under contract to provide services to the Authority. This matrix is presented for the purpose of providing general guidance concerning Organizational Conflicts of Interest and does not indicate a final determination by the Authority with respect to a particular contract or otherwise obviate the obligation to disclose all actual, potential or perceived Organizational Conflicts of Interest. When in doubt, Contractors should consult directly with the Authority with respect to the particular facts and circumstances of their own situation, consistent with any restrictions on contact set forth in applicable procurement documents.

A “No” designation in the matrix below means that either the Contractor is precluded from asking for permission to participate in a procurement or the Authority would disallow participation if asked. An “OK” designation in the matrix below means that the Contractor has the right to ask for permission and that the Authority will likely allow participation, but does not obligate the Authority to provide permission or to explain its reasons for disallowing participation. A “?” indicates that additional facts are required in order to determine whether the Contractor has the right to ask for permission and the likelihood that the Authority will allow participation.
