

Bakersfield to Palmdale Project Section

Community Open House Meetings

January 28-February 7, 2017

Please join us at one of the upcoming Community Open House Meetings

The California High-Speed Rail Authority (Authority) completed the Supplemental Alternatives Analysis (SAA) for the **Bakersfield to Palmdale Project Section** in April 2016. Four alignment alternatives were recommended in the SAA to be carried forward for full analysis in an Environmental Impact Report/Environmental Impact Statement (EIR/EIS). After extensive public outreach to community members, stakeholders and local agencies, these four alignment alternatives incorporate refinements that further avoid or minimize potential impacts to existing facilities, land uses and environmental resources.

The Authority invites you to come and learn about the project and the range of alternatives being studied. This is an opportunity to ask questions and provide input regarding effects to the environment including biological resources, cultural resources, air quality, noise, community impacts, environmental justice and more. Your feedback regarding potential environmental issues is important and allows us to take your concerns into account as part of the project decision-making process.

THE INFORMATION SHARED WILL BE IDENTICAL AT EACH MEETING
