

## Burbank to Los Angeles Project Section

Open House Meetings - September 2018

Please join us at one of the upcoming Open House Meetings

The California High-Speed Rail Authority is conducting a series of Open House Meetings for the Burbank to Los Angeles Project Section. The section is part of the first phase of building the nation's first high-speed rail system and runs approximately 14 miles connecting Burbank (airport area) and Los Angeles Union Station. At the meetings, learn about the staff-recommended State's Preferred Alternative\* to be carried forward in the Draft Environmental Impact Report/Environmental Impact Statement (Draft EIR/EIS). Information on new and existing grade separations (at railroad/street crossings), and other proposed project features, such as communication towers and local safety improvements will also be presented.

\* (a) The FRA, as NEPA lead agency, is continuing to review the alternatives and has not yet identified its Preferred Alternative under NEPA.

(b) The State's Preferred Alternative is also the State's "Proposed Project" under CEQA.
