

Question & Answer Supplemental
Request for Proposal (RFP) RFP No.: 16-10
Right-of-Way Services
December 2, 2016

1. Page 18 of 32, Item 12: "The Proposer shall attach to the Transmittal Letter a letter of commitment from each identified Subcontractor, including any relevant licenses, positions, and hours that the subcontractor is anticipated to work." As this is an on-call contract over a 4-year period, would an anticipated percentage of time working on the project be more appropriate?

Answer: Section 5.2, Item 12, which currently reads, "The Proposer shall attach to the Transmittal Letter a letter of commitment from each identified Subcontractor, including any relevant licenses, positions, and hours that the subcontractor is anticipated to work." will be changed as follows to read, "The Proposer shall attach to the Transmittal Letter a letter of commitment from each identified Subcontractor, including any relevant licenses and positions that the subcontractor is anticipated to work." These changes will be reflected in Addendum 1.
