

High-Speed Rail Stations

Station Planning Considerations

- Increase mobility
- Support intermodal transportation (emphasize bike and pedestrian)
- Incorporate community objectives
- Encourage transit-oriented development
- Use crime-deterrent design
- Foster economic development
- Design sustainable buildings
- Feature art in public spaces
- Provide room for parks

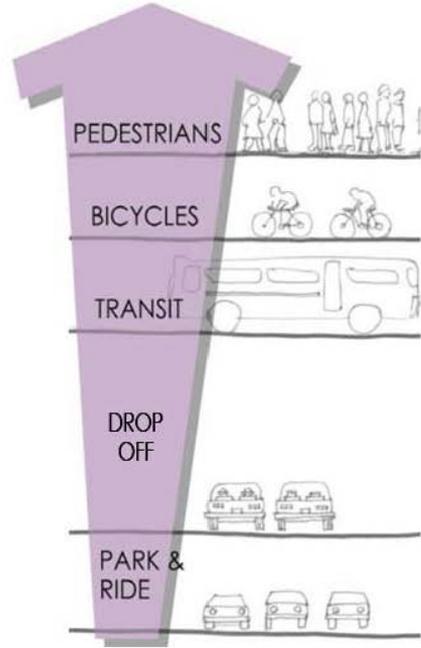

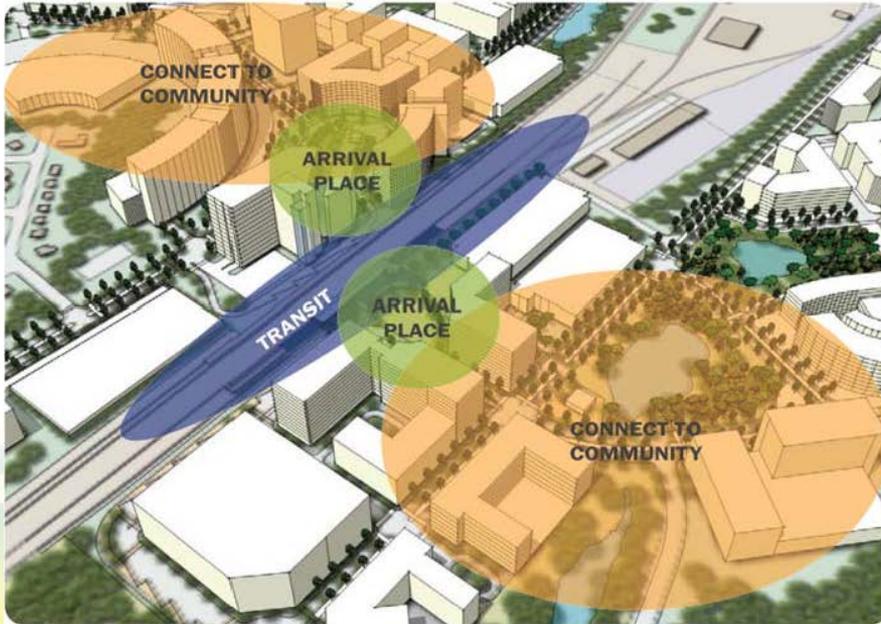

Station Basics

- Integrate with local and regional transportation networks
- Offer safe and comfortable environments
- Provide accessibility for all
- Easy to navigate

Station Access
