CALIFORNIA High-Speed Rail

# WHY WE NEED IT

**Population Growth**

- California's population now: 38 million.  By 2050: 60 million

**Mobility**

- Economic power stems from the ability to move people and goods around the state
- Interconnectivity with existing transportation

**Jobs**

- 100,000 job-years over the next five years for initial construction
- 1.2 – 1.4 million job-years for Phase 1 construction
- 4,500 job-years for permanent operations
- 100,000-450,000 job-years for new non-HSR permanent jobs by 2040

**Environment**

- Increased transportation without increased air pollution
- Increased energy independence and decreased consumption of fossil fuels
